Taichung Bike Week

MEDIA KIT 2026 Print & Online

REACH

The official & exclusive newspapers at the world's biggest bicycle industry shows. Reach premium international contacts and maximise your show investment.

MEDIA MIX

Impress visitors with your ads in a high quality editorial environment and use the circulation of both print and e-paper issues to reach your target group.

CONTENT

Our editors and photographers report on exhibitors, innovations, products, and events, making the Show Dailies an absolute must-have at the show.

ABOUT SHOW DAILY

The official trade fair newspaper

Since 2008, the Show Daily has been the official daily newspaper at Eurobike – the world’s leading trade fair for the bicycle industry. With the addition of the Taipei Cycle Show Daily in 2010 and Taichung Bike Week in 2023, we provide an advertising package that reaches key buyers at the most important events. Print has a lasting quality that other channels can’t match.

DAILY UPDATES

Our editorial team constantly keeps you up-to-date with innovations, product news, event details. The pages that change daily provide space for onsite editorial news.

EDITORIAL QUALITY

Product news, fair events and a daily photo gallery – our editors provide the right journalistic setting for your ads.

RUNNING SMOOTH

and getting the right people to your booth

OUR UNIQUE OFFER

- Published first 3-4 mornings of each fair
- Distributed free to all visitors + copies for each booth. Dedicated distribution teams also hand out copies all day, every day.
- Show Daily Online & downloadable PDF editions reach interested buyers who cannot attend the physical event

BENEFITS

Make sure you are seen by international visitors to Eurobike + Taipei Cycle. Attending Taichung Bike Week? We are the media partners of this unique event.

- Advertising product innovations
- Gaining new customers
- Generating more sales
- Increasing customer loyalty
- Multiplier effect: journalists turn to the dailies each morning to discover companies of interest
- Online updates and PDFs on www.showdaily.net

10 ISSUES, COUNTLESS OPPORTUNITIES

Full attention | Pinpoint marketing directs visitors to your booth and attracts more attention to your presence and products.

Coverage | Discount package offers - appear in all issues at both shows with a single booking.

Internationality | Taipei Show Daily editorial in **English, Japanese and Chinese** to help you reach an international audience.

Value for money | The Dailies are the exclusive way to reach buyers and media at the show. Benefits continue after the event as visitors usually take a set back to share with colleagues.

SIZE MATTERS

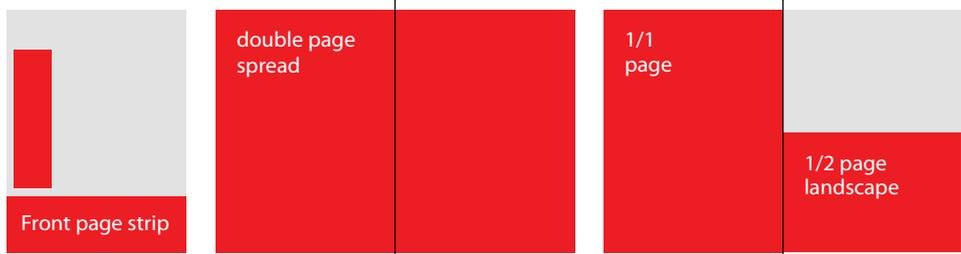

Our ad sizes at a glance

Your image and product ads help you stand out from your competitors - with a fair and transparent pricing model. Discounted packages mean a single booking gets you into all editions for the year.

For even bigger discounts you can combine print and online advertising - talk to our team for the best deals.

NEW PRODUCTS

HYENA E-BIKE SYSTEMS E-ROAD AIR DRIVE SYSTEM UNIT

Hyena's flagship hub drive system, the E-Road AIR, is lightweight at only 3.2kg. It can deliver 30Nm of torque to the rear hub axle and features a 250Wh battery, which can be boosted with an optional 180Wh range extender. Its frame-embedded LED display and a convenient two-button remote control let riders adjust assist levels without removing their hands from the handlebar or brake lever. Try it at the firm's Open Air booth, F11 / E06. 8.0 / H18

WEBER FIBERTECH FIBER COMPOSITE BIKE PARTS

German firm Weber Fibertech is a specialist in developing and manufacturing long fibre-reinforced thermoplastic parts. It now offers frames, forks, and rim components made from the material, promising new design possibilities and improved integration. Its fully automated production offers extremely short cycle times, taking just one minute to produce each frame. All thermoplastics can be recycled and reused, while the firm's use of water injection technology further opens the door to cost-efficient production in Germany. 9.2 / D04

FEEDBACK SPORTS ADJUSTABLE PLIERS WRENCH

A multipurpose wrench for various bike tasks, featuring parallel clamping and slip-lock jaws that fit any fastener up to 35mm. Unlike traditional box-end wrenches, the user's grip clamp force prevents camming off and rounding of edges. Its adjustable size replaces a full set of box-end wrenches, while the compact design allows for precision work in tight spaces. Ideal for professional-grade portable kits and DIY home workshops, this versatile tool is perfect for quick, efficient work on traditional fasteners. 11.0 / B14

JULONG MACHINERY ZERYA ZP-115 PEDALS

This updated version of Zerya's road racing pedal is 13% lighter and offers a large contact area with a 70mm tread width for enhanced power transfer and comfort. Each pedal spins on a three-bearing structure that includes one needle roller and two ball bearings to deliver superior support strength and minimal rolling resistance. This design aims to improve pedalling efficiency, making it an ideal choice for cyclists seeking high performance and comfort. 9.1 / E08

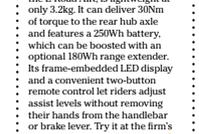

AEROZINE XNC SERIES CRANK ARMS

Aerozine's XNC series mountain bike crank arms are crafted from high-quality aluminium alloy using precise CNC technology. Having started as aluminium alloy plates, these crank arms are machined into the required specifications, including 30mm diameter spindles, chairing mounts, and other structures, all via CNC machine. Weighing only 424 grams for the 175mm version, they're ideal for riders seeking a strong, lightweight crankset. 8.1 / E42

BOSCH SMART SYSTEM GETS AI-BASED FEATURES

AI makes eBikes more fun to ride with the smart system from Bosch, with customised route planning and navigation, a new Range Control function that makes it possible to arrive with the desired battery level, and a new Eco-mode for energy-saving and long ranges. AI-based solutions recognise user behaviour, learn from it and enable, for example, smarter route planning

THINK CHANGE COMPOSITE KAVULUNGAN WHEEL RANGE

A new premium range of road and gravel wheels by Kavulungan, a composite racing cycle wheel brand from Taiwan. This 2.0 series includes a newly optimised tubeless rim structure for increased rigidity, reduced weight, and a better riding experience. The hubs have also been updated with a six-pawl, 60-ratchet mechanism that ensures faster acceleration and longer durability. Available in a range of depths. 9.3 / F82
